OUR VISION

The improved Presenter View has new tools to keep you in control. The new Auto-Extend instantly applies the right settings for you, so you can focus on speaking instead of your display.

Slide zoom – Help focus your audience on your ideas. Just click to zoom in and out on a specific diagram, chart or graphic.
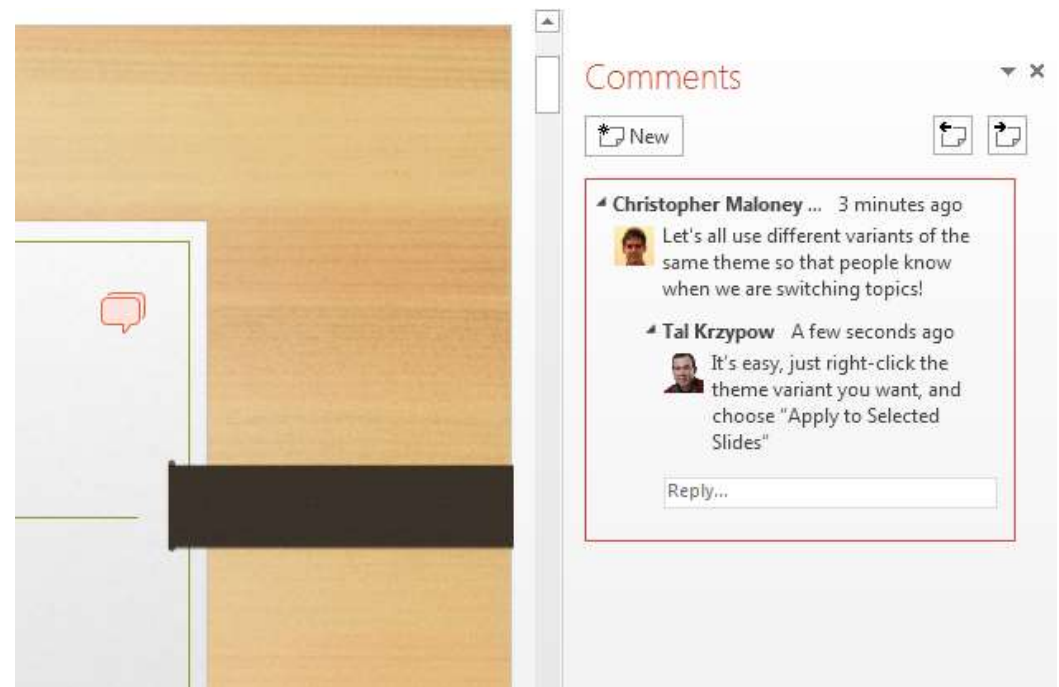

Slide Navigator – A feature that enables the user to visually browse for and navigate to other slides without leaving Slide Show view. Your audience only sees the slide you're presenting.

OUR POPULAR COURSES

Singh Computer & Coaching Center has been educating computer professionals for long time and has launched numerous successful careers in the field of information technology.

Thank You

Intuitively design beautiful presentations, easily share and work together with others and give a professional performance with advanced presenting tools.
